WORK EXPERIENCE

- **Backend Developer Intern** sep 2023 - Present
HousinCart
 - Integrated Stable Diffusion, Midjourney and API's for projects.
 - Worked with Razorpay/Stripe/ payment gateway integration.
 - Created Chatboats, API's and integrating AWS for deployment of backend applications and server.
 - Technologies: Next js, REST API's, MongoDB, cloudinary, node js, AWS Platform for projects server.
- **Backend Developer** july 2023 - oct 2023
electrawheeler pvt
 - Created functional interactive website API's, integrated JWT tokens
 - Helped To find best electric wheeler as per your preference.
 - Collaborated with electrawheeler team for enhancing the website experience and important compliance requirements of the web.
 - Technologies: Javascript(+node), react, mongodb, REST API's, .
- **Summer Intern** May 2023 - July 2023
Component Development and Learning, technohacks,
 - Developed a hand own component from scratch ,Interactive components MUI and material designs.
 - Integrate the openAI API's and free movies API's.
 - Achieved a Validation Using JWT tokens and integrating the google and facebook validation
 - Technologies: javascript(+node), MUI, Next js components, Multipart Tokens.
- **Personal Projects** May 2021 - present
 - Worked on creating the web for finding sustainable pg hostel and flat as per your preference web App
 - Created a OpenAI integrated self image generator for the personal API integrate mith-port
 - Technologies: React(Vite), mongodb, server deployment,, several open componets.

TECHNICAL STRENGTHS

- **Languages:** C++, JavaScript, Go
- **Frameworks:** React, FastAPI, NodeJS, REST APIs, Next js
- **Platforms:** Amazon Web Services (AWS), Google Cloud Platform (GCP)
- **Skills/Knowledge:** Git/GitHub, Open Source, Docker
- **Databases:** Google Firebase, MYSQL, MongoDB

PROJECTS

- **Roomoza (Invoice Billing System):** [Project Link](#)
 - Developed a system for finding and posting pg, hostels and flats for free.
 - Developed additional features such as filter, geolocation aggregation.
 - Technologies: javascript(+node js), Mongodb(Realtime Database, Auth and Storage Buckets), ejs rendering
- **AI Image generator(Create Online to plot your imagination):** [Project Link](#)
 - Developed an interface for plot your imagination in using text.
 - A user can download for free and share with other community member.
 - Technologies: react(vite), Javascript(+node js), mongodb(atlas), OpenAI API

EDUCATION

- **Government engineering college bilaspur Chattisgarh(CSVTU)** 2020 - Present
Bachelor of Technology - computer science CGPA : 8.0/10
